COGENT SECURITY
CONSULTING LLC

- **Accredited:** Enterprise Authority to Operate (ATO) from National Nuclear Security Administration - 2022
- **Powerful:** Infrastructure and Security as a Service (IaaS/SaaS) for Government, leveraging Amazon Web Services
- **Secure:** Centralized model, authorized to host Controlled Unclassified Information within APCS boundary
- **Modern:** Deploy state-of-the-art applications using popular frameworks (e.g., react.js, vue.js, AngularJS, PHP, etc.)
- **Efficient:** Configure your Virtual Private Cloud and authentication platform so developers can focus on code
- **Scalable:** Elastic load balancers available and built-in
- **Fast:** Deploy new applications within 30-days, without lengthy federal approval process
- **Compliant:** Review and reporting included with service
- **Simple:** Knowledgeable support staff assist with setup
- **Affordable:** Scalable pricing for deployment and maintenance
